Soros vent tubes	Atlantic Aero twin isolator mounts	Aero Twin main gear deflectors
Rosen sunvisors	AP Enterprises door stewards	Cashmere fuel quick drains
Heavy duty tailskid	Precise flight ldg/taxi pulselights	Whelen anticollision

Very sought after U206F with factory float kit, amphib floats, heavy duty wheel gear (and a spare landplane propeller), good paint, upgraded avionics, no major damage history, excellent maintenance and original/complete logs! This was the seller's prized possession; no expense was ever spared because he was flying his grandkids. Don't let this aircraft get away & don't be fooled – these amphib are great performers!
